

BIANCO RAINSAVER – CONVERSION KIT

The NEW RAINSAVER BIA-RS3ESK10A Conversion Kit replaces all changeover devices including Davey Rainbank and Onga Waterswitch and converts manual pumps to a fully automatic mains and tank water changeover device in a jiffy. It's another no brainer.

- Converts pumps without controllers into Automatic Rainwater / Mains Changeover Systems
- Converts older Rainwater / Mains Changeover Systems into better performing systems using your existing pump
- Suitable for Mains and Pump flows to 100 litres per minute
- Suitable for Mains and Pump pressures to 800 kPa
- Suitable for pumps to 1.1 kW, 240V
- Plug and Play Pump Connection
- Low Voltage Float Switch for Safety
- Auto Restart Pump Controller automatically looks for Rainwater

Contents Specifications – Bianco Rainsaver MK3E

The RAINSAVER MK3E Control is an Automatic Rainwater / Mains Water Changeover Device designed to provide automatic mains back up for Pressure Pump supply systems. The RAINSAVERMK3E is designed to be installed in conjunction with a Pressure Pump supply system that is fitted with an independent pressure and flow controller with loss of prime.

General Specifications:

- Controls pumps to a maximum 1.5 hp, 1.1 kW 240V.
- Maximum water temperature (mains + pump): 40^o C.
- Maximum recommended continuous pump flow: 100 litres per minute.
- Maximum recommended pump pressure: 800 kPa.
- Maximum recommended mains inlet pressure: 800 kPa.
- Low voltage float switch output 12V.
- Low voltage float switch cable 10 metres.
- Option of "finger" type float switch.
- Power supply lead 2 metres.
- 2 year in-field warranty, see installation and operating manual for details.
- WaterMark Level 1 Certification to ATS5200.477:2006, License No. 23022.

Operation:

The RAINSAVERMK3E supplies clean rainwater from a rainwater tank via an automatic pressure system pump to toilets, laundry and garden taps in a household.

Mains water is also connected to the RAINSAVERMK3E as an automatic back up should rain water level be too low, or if there is a power or pump* failure).

*Should there be a pump failure, mains back up is achieved by turning the RAINSAVERMK3E off at the power point.

The low voltage float switch supplied prevents the pump from running dry and allows automatic switch over to mains supply should the rain water level in the tank be too low.

2 Year Rainsaver In-Field Warranty

Available mid November 2010
